My recommend: I reply to her letter by Friday offering to arrange telcon or vtc week of 13 October with me. She will be in Stl this weekend so

will acknowledge her visit and suggest info she gathers in that visit will inform our talk.

7 will have desk statement ready to use in response to media generated by Gibbs visit. It will correct her factual misstatements and describe ongoing epa work that keeps west lake site protective of health in community around west lake.

Mathy: appreciate u controlling response to 7 and suggesting we lead. Would u like to join our call? Your national perspective would help. If u prefer not I will surely pick your brain next week about Gibbs.

Recommend administrator not meet Gibbs.

7 remains on track to bring ROD work to decision point consistent with schedule oswer and 7 agreed last month. We look forward to our brief w your staff mid October and w u and Barry late month.

Lisa: Mathy has been great getting oswer staff at hq geared into tech work by 7.

Cheers

Karl
